The Suffolk Center on the Holocaust, Diversity & Human Understanding, Inc. has created an exhibit based upon the rare, historic book, *Extermination of Polish Jews: Album of Pictures*. The exhibit will be on display through February 25. A special event will take place as indicated above. Speakers will address their reactions to the photographs and their relevancy to current events.

The book made its journey to the United States with the Charych family. They acquired it when it was published soon after liberation. While they had survived, they were the exceptions in their respective families. Their story is also told by this book.

**Irving Roth, Holocaust survivor
Harold Charych, child of Holocaust survivor
